

## Physiotherapy and recovery service · MASQUEBICI

The physiotherapy and recovery service of the **Škoda Titan Desert Almería** is managed by **MASQUEBICI**, a team with a presence in the race since **2009**.

After more than fifteen editions working in the desert, **MASQUEBICI** offers a specialized service in extremely demanding stage races, aimed at **injury prevention, daily recovery and performance maintenance**.

The service includes:

- **Pre-competition work** with joint mobility, dynamic elasticity and activation massage.
- **Post-competition work** focused on unloading massage, drainage and muscle recovery.
- **Personalized attention**, adapted to the condition of the rider and the demands of each stage.

Our goal is for the runner to arrive at the start every day in the **best possible physical condition** to complete the desert challenge.

**Real experience. Knowledge of the terrain. Service designed by and for the Titan Desert.**
