Titan Ebike it's a different experience. A 100% Titan adventure.

The **eBike** program is the perfect way to embrace the Titan spirit without the need to compete. Two stages on an electric bike to experience the magic of the Titan world from the inside, share kilometers with the **Škoda Titan Desert Almería** peloton, and enjoy the unique landscapes of the Tabernas Desert.

A guided experience with full logistical support, designed so all you have to worry about is enjoying yourself. You'll live alongside the other participants in the camp, ride parts of the same stages as the titans, and be part of the unique atmosphere that defines this adventure.

Riding in **eBike** mode opens the door to a different kind of adventure challenging in its own way and one you'll remember forever.

An aerial photograph of a mountain river with a person on a bicycle crossing a bridge. The river is surrounded by rocky terrain and green vegetation. A large, stylized, teal-colored letter 'T' is superimposed over the center of the image, with the word 'EBIKE' in white capital letters across its middle.

FRIDAY OCTOBER 3RD 2025

Check in and briefing

You'll arrive on your own at the **Titan camp**, located at the **Barceló Cabo de Gata (4*)** and **Cabo de Gata Beach (5*)** hotels.** Once there, you'll be able to check in at the hotel (from 4:00 PM) and settle into your room.

From **4:00 PM to 8:00 PM**, the **check-in and verification** process will take place. There, you'll register as a participant and receive all the materials provided by the organization.

At the end of the day, you'll need to leave your e-bike—assembled and fully charged—in a designated area set up by the organization, along with your bike charger properly labeled.

That way, the next morning you'll find it ready at the starting line, prepped so all you have to do is hop on and enjoy the ride.

Saturday **OCTOBER 4TH 2025**

Stage 1: **Almería circuit – Almería circuit**

After breakfast at the hotel, we'll join the rest of the Titans for the transfer to the Almería Circuit, the starting point of this first stage. Upon arrival, you'll find your bikes ready to kick off the adventure.

Once the stage is completed, you'll enjoy a refreshment stop at the circuit before boarding the shuttles that will take you back to the hotel. The bikes will remain there, charging and getting ready for the next day.

Back at the hotel, you'll have time to rest, eat, and immerse yourself in the **100% Titan** atmosphere, with activities like the "From titan to titan" talks and the traditional daily briefing. After the briefing, it'll be time to recharge with dinner and rest up for the final day.

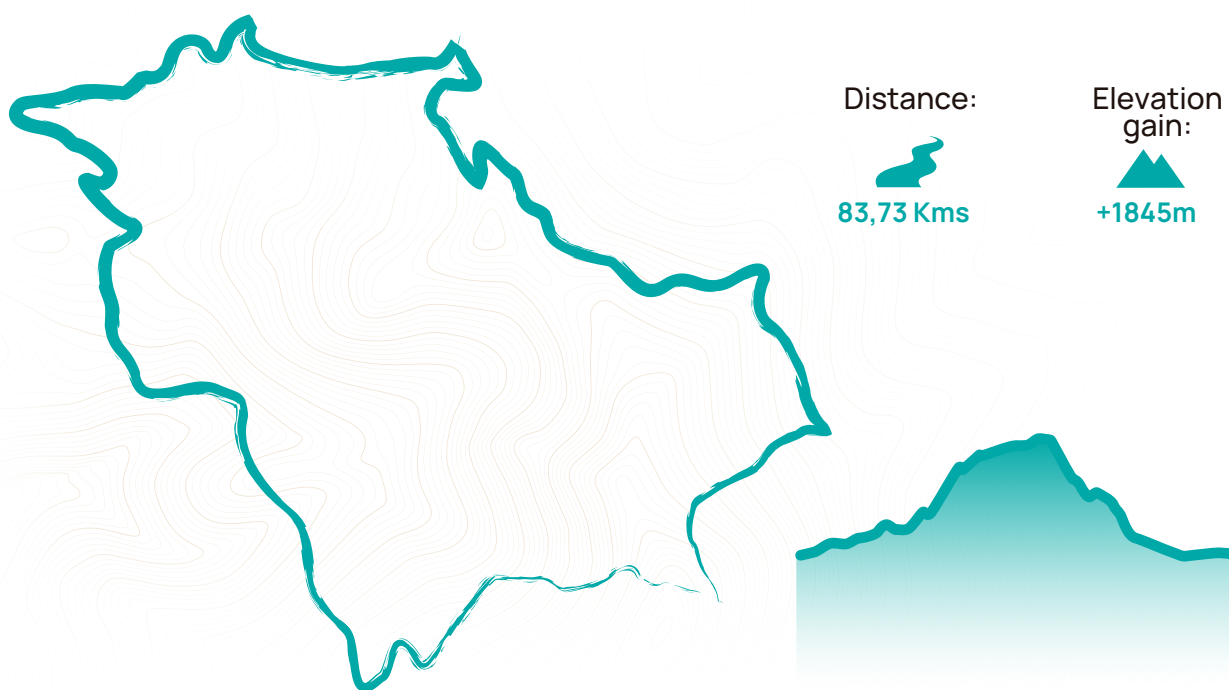

Stage 1.

Titan is synonymous with challenge, and the eBike program is no exception. This first stage will test both your energy management and battery usage on a day that won't be easy but will definitely be unforgettable.

The first kilometers are shared with the rest of the peloton until reaching the start of the climb to Velefique. From there, the route diverts along an alternative path through Senés, reconnecting with the original course near Castro de Filabres.

From that point, the trail follows dry riverbeds and well-maintained tracks until returning to the Almería circuit, where this demanding yet thrilling first stage comes to an end.

sunday **OCTOBER 5TH 2025** **Etapas 2: Almería circuit – El Toyo**

Today, you'll wake up with tired legs but a big smile on your face. The satisfaction of the previous day and the excitement of what's still to come will set the tone for the start of this second stage.

After breakfast at the hotel, you'll take the transfer to the Almería Circuit, the starting point of the day. Unlike the previous day, today's stage is a linear route that will finish in El Toyo, right next to the hotel.

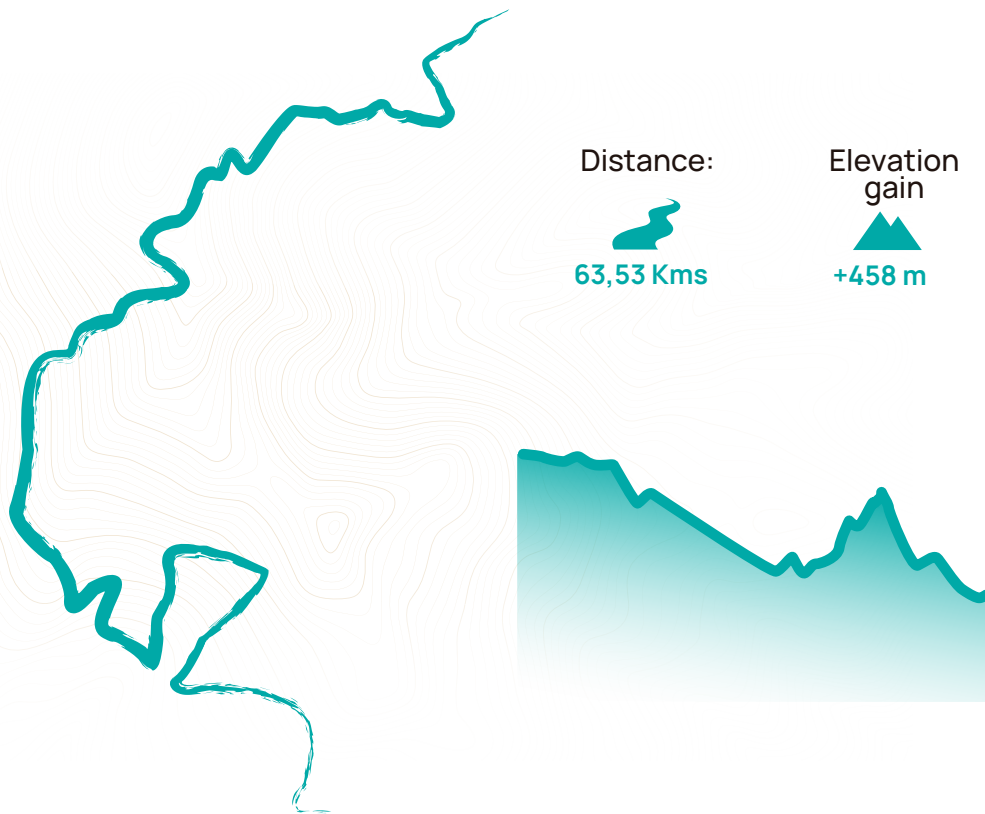

At the finish line, we'll celebrate the end of this adventure as it deserves: with a special farewell meal and an emotional closing ceremony, where you'll relive the best moments and take home unforgettable memories of this 100% Titan experience.

Stage 2.

Unlike the previous day, today's route will be more rideable, starting among the iconic dry riverbeds (ramblas) of the Tabernas area. From there, the route gradually progresses toward the Legion base, where the eBike itinerary diverges from the main course, as it does not enter the military facilities.

Once the general route is rejoined, you'll face the final stretch of this Titan adventure: a section of continuous climbs and descents, followed by fast ramblas, open trails, and the final kilometers pedaling along the sea, with the finish line getting closer and closer. An exciting finale that will lead you to cross the finish line in El Toyo, sealing an unforgettable experience and officially making you a titan.

TITAN EBIKE it will take place from October 3rd to 5th. There will be 2 stages..

The program is limited to 25 participants.

THE PROGRAM INCLUDES:

Program registration
(with guide)

2 nights of hotel accommodation
